IT HAPPENED HERE!

(SECRETS+STORIES FROM AROUND THE CAMPUS)

56

BACK IN THE 1930S – WHEN THERE WERE STILL SEVERAL FAMILIES LIVING ON CAMPUS – A GROUP OF MISCHIEVOUS STUDENTS CAUSED THE OLD ARTS CLOCK TO TOLL 466 TIMES, STARTING AT 6.30AM.

48

IT IS SAID THE GHOST OF NELLIE MELBA, AUSTRALIA'S MOST FAMOUS OPERA SINGER, HAUNTS MELBA HALL.

There have been numerous reports of an unexplained whistling sound during or after a performance, thought to be the soprano voice of Dame Nellie either singing high praise or telling the performer to get off the stage.

90

THE FIRST WILSON HALL – A GRAND GOTHIC STRUCTURE – BURNT TO THE GROUND IN 1952. THE EVENT WAS CAUGHT ON FILM BY A PASSING SUPER-8 ENTHUSIAST.

A stained glass window panel by Napier-Waller, known as the Leckie Window (on display in the Ian Potter Museum of Art), was rescued from the ashes, along with a small number of stone sculptures depicting the heads of kings and queens of England. From the 'new' Wilson Hall foyer, Tudor royalty watches over students as they transition through exams and graduation.

THE CSIRO MARK I COMPUTER – THE ONLY OPERATING COMPUTER IN THE COUNTRY AT THE TIME OF ITS LAUNCH – WAS HOUSED AT THE UNIVERSITY BETWEEN 1956 AND 1964.

The computer executed a simple program, with an output message rate of five characters per second: 'Mr Vice-Chancellor, thank you for declaring me open. I can add, subtract, and multiply; solve linear and differential equations; play a mediocre game of chess and also some music,' the computer informed onlookers. It is now housed at the Melbourne Museum.

17

Dr David Solomon, Professorial Fellow in the Department of Chemical and Biomolecular Engineering, led the team that worked with the Reserve Bank of Australia to develop the first plastic banknote issued in 1988. As part of the process, he built a secret mini-production line to demonstrate to the Reserve Bank the practicality of plastic money, which has been adopted widely around the world.

86

THE ATHLETICS ASSOCIATION WAS FORMED IN 1883 AND EMPLOYED A CARETAKER WHO WAS ALLOWED TO GRAZE A COW ON THE OVAL.

As part of his employment, the caretaker was required to bowl to members of the cricket club for two hours each afternoon during the cricket season.

DUNK TANK

84

Before it was filled, Union Lawn (also called Concrete Lawn) was a recreational lake. In the early 20th Century, any overly vocal students were dunked in the lake to quieten them down.

82

THE SOUTH LAWN, OR UNDERGROUND CAR PARK, IS FAMOUS FOR ITS GOTHIC-LIKE PILLARS AND EERIE ATMOSPHERE. ACCESS IS VIA A CARVED DOORWAY WHERE TWO LOOMING STONE FIGURES WELCOME YOU INSIDE. THE CAR PARK'S DRAMATIC ARCHES AND MONOCHROME PALETTE HAVE FEATURED IN SEVERAL FILM AND TV PRODUCTIONS, FROM MAD MAX TO MASTERCHEF.

10

SLIPPERY STUDENTS

Take Billibellary's Walk to find out about Townend Creek that once rose near what is now Melbourne Cemetery and was redirected underground as the campus was developed. The creek originally flowed south through the University site right down to the Yarra River.

In Billibellary's time, around the 1830s, the creek was a migration stream for short-finned eel. Eels sometimes still swim upstream and get trapped in the pipes. You just might see one pop out of the pipes in the pond of the Redmond Barry courtyard.

6

OVER 200,000 RARE AND HISTORIC BOOKS, SERIALS, PAMPHLETS AND LITERARY ARCHIVES ARE HOUSED IN THE BAILLIEU LIBRARY'S SPECIAL COLLECTIONS. IT IS THE LARGEST NON-GOVERNMENTAL ARCHIVE IN AUSTRALIA AND IF YOU LINED UP THE STORAGE BOXES SIDE BY SIDE THEY WOULD EXTEND FOR ABOUT 15 KILOMETRES.

25

WORKING IT

In 1856, stonemasons working at the University downed tools, joined other labourers and marched to parliament to declare their right to work an eight-hour day. Their protests led to improved working conditions across the country and our Labour Day holiday.
